

Quality Warranty

As a manufacturer and distributor of our swimming pool membranes reinforced of our brand

we warrant our certified partners

unipool swimmingpools & Fitness GmbH

and

and their customers as well best quality and high security with the use of our products. We adhere strictly to quality standards like DIN EN 71-3. This European standard with the status of a German norm determines requirements and test procedures for toxic elements. The portion of dissolved elements of our products is far below the threshold and thus unobjectionable. We only use Diisononyl phthalate (DINP), a proven* unspeculative diluent, for our products. Our certified partners and their customers are assured of qualitative high-grade and hygienic inoffensive products made in Germany.

Our products bear the name of a responsible company.
